

## Google Myinfo – How to send a POI to your BMW

### On the internet from a work or home computer:

- 1) Access the North American Google maps portal at [maps.google.ca](http://maps.google.ca) or [maps.google.com](http://maps.google.com).
- 2) Select a POI or street address within North America.
- 3) Select the  icon, located outside the upper-left corner of the map.
- 4) A pop up window will appear. Press the “Send” link.

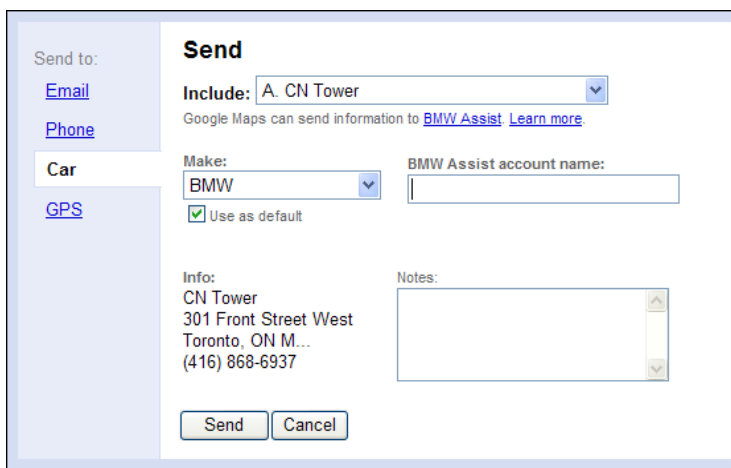

Paste link in email or IM ×

Short URL Send

Paste HTML to embed in website

[Customize and preview embedded map](#)

- 5) The pop up window prompts the user to enter the vehicle's:
  - a. BMW Assist Account Name\*
  - b. Notes for any additional information
- 6) Press the “Send” icon. The POI has now been sent to your vehicle.

Send to:  
[Email](#)  
[Phone](#)  
**Car**  
[GPS](#)

**Send**

Include:  ▼

Google Maps can send information to [BMW Assist](#). [Learn more](#).

Make:  ▼ BMW Assist account name:

Use as default

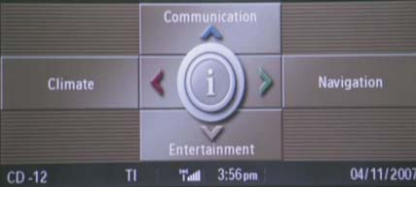

Info: CN Tower  
301 Front Street West  
Toronto, ON M...  
(416) 868-6937

Notes:

\*For MyInfo to work, you must include a valid email address in the BMW Assist Subscriber Agreement upon purchasing your vehicle or renewing your BMW Assist services. If you are unsure of your registered account name or want to change it, please contact BMW Assist at 1-800-493-4070.

## In the Vehicle:

| First Generation iDrive   | Second Generation iDrive   | Radio (non-iDrive)   |
|---|--|--|
|    |    |   |
| <ol style="list-style-type: none"> <li>1) Select "Communication" from the main menu</li> <li>2) Select "BMW Assist"</li> <li>3) Select "My Info"</li> <li>4) Select "Download New Destination"</li> <li>5) Select the relevant destination</li> </ol> | <ol style="list-style-type: none"> <li>1) Select "Telephone" or "BMW Assist" from the main menu</li> <li>2) In either menu, select "Messages"</li> <li>3) Select the relevant destination</li> </ol> | <ol style="list-style-type: none"> <li>1) Select the "Menu" button on the main console</li> <li>2) Select the "Assist" option</li> <li>3) Select "Info"</li> <li>4) Select the relevant destination</li> </ol> |

## At this point you can:

- Navigate to the destination if you have either the first or second generation iDrive
- Dial the phone number of your destination if your handset is paired via Bluetooth
